IDAHO TRANSPORTATION DEPARTMENT REQUEST FOR BID

April 11, 2006

Idaho Transportation Department
Supply Services Purchasing Section
3311 West State Street
Boise, Idaho 83703

REQUISITION #: D-004620

ALL sealed bids must be received by 5:00 pm on May 9, 2006. Sealed bids will be opened at 10:30 am on May 10, 2005 at Supply Services, Purchasing Office, at 3311 West State Street in Boise. The scope of work on this project consists of furnishing all materials, equipment and labor for the **DISTRICT WIDE MOWING, AT VARIOUS COUNTIES**, as per the specifications contained in the above requisition. A Mandatory Walk Through will be held on May 1, 2006, 1:00 PM at the Idaho Transportation Department main office located at Date and B Streets, in Shoshone Idaho. All questions are due at this time. Bids received from Contractors not in attendance will not be accepted.

Contact Evey McAdams, Contract Program Specialist for Bid Requirements and Clarification at (208) 334-8084. For Technical questions, contact Lytle Gaskell at (208) 886-7808 or Randy Norris at (208) 886-7827.

Fax ALL questions regarding this bid to: (208) 332-4109

FOR BID RESULTS, PLAN HOLDERS LIST VISIT:

SPECIAL PROVISIONS
DOCUMENT NO.: D-004620
IDAHO PROJECT STM-D4-2006 ROADSIDE MOWING

District Wide Mowing: I-84, I-86, US-93, US-30/93, US-30, US-20, SH-75 Including Sun Valley Rd, SH-26, SH-25, SH-46 Including the spur, SH-27, SH-77, SH-81, and SH-24.
Counties: Blaine, Camas, Cassia, Elmore, Gooding, Jerome, Lincoln, Minidoka, Oneida, and Twin Falls.

The following Special Provisions and all addenda issued supplement or modify the 2004 State Standard Specifications, SP-AS Special Provisions-State Aid, QC/QA Specifications, This project is not federally funded.

CONTRACTOR'S NOTES

A Public License Works will be required, refer to **PAGE 77, SUBSECTION 107.03 – LICENSING OF CONTRACTORS**

COMPLETION TIME AND LIQUIDATED DAMAGES

All work shall be done in a time frame beginning June 1, 2006 and ending September 30, 2006.

An intermediate completion date of July 5, 2006 will apply to the following items: SP-30-C, SP-77, SP-81, SP-24-A, SP-25-C, SP-27, SP-93-A, SP-30/93, SP-30-B, SP-25-B, SP-74, and SP-50; the amount of liquidated damages for failure to complete this work on or before July 5, 2006, will be \$200.00 per day.

An intermediate completion date of August 16, 2006 will apply to the following items: SP-30-A, SP-26-A, SP-46-A, SP-25-A, SP-26-B, SP-24-B, SP-93-B, SP-20, SP-75-A, SP-46-B, SP-75-B, and SP-75-SVR; the amount of liquidated damages for failure to complete this work on or before August 16, 2006, will be \$200.00 per day.

An intermediate completion date of September 30, 2006 will apply to the following items: SP-84-A, SP-84-B, and SP-86; the amount of liquidated damages for failure to complete this work on or before September 30, 2006, will be \$400.00 per day.

The amount of liquidated damages for failure to complete all work on or before September 30, 2006, will be \$400.00 per day.

CONTRACT TERM:

The term of this contract will be for 1(one) year, with the option to renew for 2 (two) one year periods, when agreed upon by both the contractor and the Idaho Transportation Department.

It will be the responsibility of the Contractor to furnish sufficient equipment and personnel to perform all duties described in the specifications without additional cost to the State.

PAGE 15, SUBSECTION 103.04 - BOND REQUIREMENTS

The lowest qualified bidder shall furnish a 100 % Performance Bond and Payment Bond equal to the full amount of the contract, in accordance with the applicable Idaho law. The bonds and certificate shall be executed on the forms furnished by the state.

PAGE 91, SUBSECTION 108.04 - LIMITATION OF OPERATIONS

Add the following:

Roadside Mowing shall also be scheduled to avoid events such as holidays, events that may cause traffic peaks and associated congestion. Mowing may be performed between one hour after sunrise and one hour before sunset. Corporative scheduling may be necessary for special "Local Events".

SH-75 & Sun Valley Road, no mowing shall be done during the hours of 7:00 AM to 10:00 AM or during the hours of 4:00 PM to 7:00 PM on weekdays.

UTILITY COORDINATION

The contractor will be responsible for the repair of any utility damaged by their operation at no expense to the State.

STANDARD SPECIFICATION BOOK AVAILABILITY

The 2004 Idaho Transportation Department's Standard Specifications for Highway Construction manual is available to the contractor for \$ 30.00 plus tax. Contact the Idaho Transportation Department at (208) 334-8430 to purchase.

EXAMINATION OF SITE

Before submitting a bid to the State, bidders are urged to visit the site where the services are to be performed and fully inform themselves of all the conditions and limitations. Failure to do so will in no way relieve the successful bidder of the responsibility in furnishing sufficient equipment and personnel to perform all duties described in the specifications without additional cost to the state. A District 4 map is available upon request. See contacts listed, under 'Construction Requirements', within this document.

PRE-BID CONFERENCE, REQUIRED

A Mandatory pre-bid conference and site inspection will be required. The conference will be held on Monday, May 1, 2006 at 1:00 PM at the District 4 Idaho Transportation Department main office located at Date and B Streets, in Shoshone Idaho. The purpose of the conference is to answer questions related to this proposal. Those who attend the conference are requested to advise Lytle Gaskill, the District 4 Maintenance Coordinator, at (208) 886-7808, at least 24 hours in advance. Failure to attend the conference will result in the Contractor being considered an unqualified bidder, and their bid will be rejected.

PER-CONSTRUCTION CONFERENCE

After the contract has been awarded and before work commences the contractor will meet with the Idaho Transportation Department District 4 Maintenance Engineer and / or his representatives to discuss the work performance requirements and the terms of the contract.

USE TAX

The exercise of control over State-owned material by a Contractor who is improving real property (roadways, etc.) will incur the imposition of a use tax.

Bidders are advised to consult Section 63-3609, Idaho Code, and IDAPA 35, Title 01, Chapter 02, Sales Tax Administrative Rule 012, "Contractors Improving Real Property", and Rule 013, "Road and Paving Contractors", or contact the Idaho State Tax Commission for guidance. Telephone No (208) 334-7691.

SEDIMENT AND EROSION CONTROL

There is no area off ground disturbance planned or anticipated outside of the existing paved area with this project. Therefore, no sediment and erosion control plan will be needed. If the Contractor's operation does create any ground disturbance, either outside the existing paved area or in a staging area, the FHWA requirements found in 23CFR 650, Subpart B, Erosion and Sediment Control on Highway Construction Projects and the Idaho Transportation Department Catalog of Storm Water Best Management Practices (BMP's) shall be adhered to.

EMPLOYMENT AGENCY

The designated employment agencies are as follows:

Id Dept. of Labor: P.O. Box 158, 127W 5th St. N., Burley ID 83318-0158

Id Dept. of Labor: 771 North College Road, Twin Falls ID 83303

Exceptions:

No mowing required behind guardrail, in construction zones, or in cities or towns. Milepost limits are approximate for bidding proposes only. SEE MILEPOST TABLE AND AREA CONTACT LIST ATTACHED. (Attachment # 1)

PURPOSE:

STRIP MOWING shall include mowing a swath of vegetation adjacent to the edge of the pavement, and also include all mowing necessary to maintain adequate sign distances at curves, off ramps, on ramps, signs, delineators, and other roadside structures.

CONSTRUCTION REQUIREMENTS:

The work shall include furnishing all labor, equipment, supplies, tools, and materials required to effectively mow the roadsides on Idaho Transportation Department property and Right of Way as described in the general requirements, work locations, and schedule prescribed herein.

All mowers must be equipped with the manufacturer's safety device(s) to prevent damage to property caused by flying debris propelled from under the mower. All mowers shall be kept in good operating condition and shall be maintained to provide a clean sharp cut of vegetation at all times.

In addition too the work outlined in this document, the contract requires the Contractor or representative to confer on a daily basis with the District 4 Maintenance Engineer or his designated representative, concerning work units, scheduling, and any problems or concerns that may arise. The District 4 Maintenance Engineer and his representatives are as follows:

District 4 Maintenance Engineer	Scot Stacey	(208) 886-7805
District 4 Maintenance Coordinator	Lytle Gaskill	(208) 886-7808
Burley / Rupert Area	Mike Ellis (430)	(208) 436-4330
Twin Falls Area	Dennis Jensen (490)	(208) 736-3088
Shoshone / Fairfield / Carey Area	Jarrett Porter (450)	(208) 886-7859
Jerome Area	Chuck Chapin (460)	(208) 324-4401
Hailey Area	Ron Robinson (480)	(208) 788-3365

The Contractor shall clean all mowing equipment of accumulated clippings and soil prior to the start of work to remove the potential spread of noxious weed seeds and other undesirable vegetation.

All center medians and outer separations less than one width as designated in the work areas shall be mowed full width. When the median or outer separation is grater than the specified width, the designated strip width shall be mowed along each side.

Mowing shall include smooth and gradual transitions between areas where designated mowing widths vary. The rate of transition shall be designated in the work areas or in the attached exhibits.

The Contractor shall mow and trim as close as possible to all fixed objects exercising extreme care so as to not damage trees, plants, shrubs, signs, delineators, or other appurtenances which are a part of the roadside. Hand trimming around such objects shall be required. If the

Department determines that any damage is the result of negligence by the Contractor, repairs or replacement shall be the responsibility of the Contractor at the Contractor's expense.

If any damage to delineators occurs the contractor shall notify the area representative and make proper repairs within 5 calendar days. If the necessary repairs have not been made in the allotted time, State Forces will make the necessary repairs and the contractor will be charged \$ 50.00 per unit.

Mowers shall be adjusted for a cutting height so that approximately 6" of the mowed vegetation remains standing.

The Department will determine and identify all non-mow, special vegetation management areas and stands of wildflowers that will be excluded from mowing requirements. All areas will be identified prior to commencement of work.

The Contractor shall exercise caution so as not to allow debris to be thrown on the traveled roadway and shall immediately remove and properly dispose of any debris which may be thrown on the roadway by the mowing operation. Mowed grass will not normally be removed unless it is deposited on the traveled traffic lanes in quantities large enough to become a traffic hazard as determined by the Engineer. No additional payment will be made for removal of debris or grass from the roadway surface.

Mowing will not be permitted when, in the opinion of the Engineer, soil and weather conditions are such that the right-of-way will be damaged. No payment will be made for the standby time when, in the opinion of the Engineer, soil or weather conditions do not allow mowing.

The Engineer will answer all questions which may arise as to the quality and acceptability of work performed.

The Contractor shall observe and comply with all applicable laws, ordinances, regulations, orders, and decrees; and shall protect and indemnify the State and its representatives against any claim or liability arising from or based on the violation of any such law, ordinance, regulation, order, or decree, whether by himself, his employees, or his subcontractors.

Mowers and support vehicles shall be operated in the normal direction of traffic flow when mowing foreslopes.

All vehicles and machinery operating on or from the traveled way or road shoulder shall be equipped with at least one roof mounted, high intensity rotating or strobe type amber flasher readily visible from front and rear for at least 1/2 mile.

Approved fire retardant and extinguishing equipment must be immediately available for use in case of fire caused by mowing operations.

626 CONSTRUCTION TRAFFIC CONTROL

The inserted Traffic Control Plan shall be the minimum traffic control required. If the included Traffic Control Plan does not meet the Contractor's mode of operation, the Contractor shall be required to submit a new Traffic Control Plan to the Maintenance Engineer for approval prior to commencement of work.

Traffic shall be maintained through the work area and protected in accordance with the Manual of Uniform Traffic Control Devices (MUTCD), latest edition.

The Contractor shall provide, erect and maintain all traffic control signs and devices, and traffic control for the occupied work areas in accordance with the requirements contained in these specifications and shall take all necessary precautions for the protection of the work and the

safety of the public. Traffic control devices shall conform to the current Manual on Uniform Traffic Control Devices (MUTCD), Part VI published by the US Department of Transportation, Federal Highway Administration. All traffic control devices, i.e. (Drums, cones, tubular markers, barricades, etc.) shall be required to have class "B" reflective sheeting or battery operated flashing warning lights. All signs and traffic control devices remain the property and responsibility of the Contractor. Work shall not be initiated until traffic control devices are in place at the work site.

Traffic control devices shall be covered or removed from the roadway when work is not taking place. When flaggers are present, signing for the flagging operation shall be required. Flaggers shall be equipped with radios that are capable of communicating at least 5 miles. Flagging shall be considered incidental, no separate payment will be made for flagging. When not in use, equipment shall be parked no closer than 30 feet from the edge of the roadway. Vehicles and machinery not currently used in the work shall be parked off the right-of-way at approved locations to minimize interference with the normal use of the highway. Equipment shall be the responsibility of the Contractor.

The cost of furnishing, installing, and maintaining signs, cones, or other traffic control devices and personnel will be incidental to the unit price. No payment will be made for standby or downtime.

Definitions:

<i>Appurtenances -</i>	Delineators, signs, posts, and other objects within the mow zone
<i>Backslope -</i>	Roadside from the bottom of the ditch to the fence or the ROW boundary
<i>Department -</i>	Idaho Transportation Department
<i>Foreslope -</i>	Roadside from the shoulder to the bottom of the ditch.
<i>Inside -</i>	The area being the median between the eastbound and westbound roadways
<i>Interchanges -</i>	Any of the entrances or exits on an Interstate where traffic can enter or depart
<i>Median -</i>	Unpaved area between two-way traffic on a divided highway
<i>MUTCD -</i>	Manual on Uniform Traffic Control Devices.
<i>Outer Separations -</i>	Roadside adjacent to interchanges and road excluding median
<i>Outside -</i>	That area between the edge of roadway and the right-of-way fence
<i>Roadside -</i>	All unpaved land in the entire right-of-way.
<i>Shoulder Strip Mowing -</i>	That area including the foreslope plus designated backslope or embankment slope consisting of a continuous and defined swath for a prescribed distance.
<i>Shoulder -</i>	The strip of land along the edge of a paved road
<i>Spot (Safety) Mowing -</i>	That area so designated that deals with specific situations that will result in improved visual impact, maintain sight distances such as inside curves, on ramps, off ramps, intersections, and private entrances, to reduce the possibility of drifting snow due to excessive roadside vegetation height, or to reduce the likelihood of concealing livestock or wildlife.
<i>State -</i>	Idaho Transportation Department (ITD)
<i>Structures -</i>	Overpasses, bridges, guardrails.
<i>Swath -</i>	The width, which may vary, covered with one pass of a mowing device.
<i>Transition mowing -</i>	That area to designated that blends from an area that is not mowed to an area that will be mowed. Avoids abrupt changes in the mowing patterns to reduce visual impact or to provide adequate sight distances for signs, other roadside structures and intersections.
<i>Work Units -</i>	A definite amount or quantity of work used as a standard of measurement. Work Units, may be used to measure a prescribed amount of work such as per hour, per acre, per kilometer, etc.

Method of Measurement

The work will be measured by the acre, measured to the nearest acre.

Basis of Payment

Payment for accepted work will be made as follows.

III. PROPOSAL GUIDELINES

1. Pre-proposal Conference

Oral explanations, instructions and interpretations given to bidders prior to award of contract will not be binding. It is the Department's intent to provide all bidders equal opportunity to access and acquire all available pertinent information necessary to formulate a responsive bid. Any information, specifications, plans, data or interpretations which the Department discovers is lacking and may be important to all bidders, will be furnished to all bidders in the form of an addendum, the receipt of which shall be acknowledged.

2. Performance

Submission of a bid by any Contractor shall be accepted as prima facie evidence that they have satisfied themselves as to the nature and location of the work and all other matters, which can in any way affect the work or cost thereof under the contract. Any failure of the Contractor to acquaint them with all available information, including a physical survey of the site of the proposed work, shall not relieve them from successfully performing all the work required.

3. Bidding Requirements and Conditions

Sealed Bids will be received at the time and place stated on the Signature Page. Timely receipt of Bids will be determined by the date and time the Bid is received at the address specified. Hand delivery is encouraged to ensure timely receipt. No proposals will be accepted after the time indicated. All material that is submitted in accordance with this solicitation becomes the property of the State of Idaho and will not be returned.

The bidder shall submit their bid proposal upon the forms furnished by the Department. In the bid schedule, the bidder shall specify a unit price in figures for each pay item for which a quantity is given and show the products of the respective unit prices and quantities written in figures in the column "Amount Bid," and the total amount of the bid obtained by adding the amounts of the several items. In the event of a discrepancy between unit bid prices and extensions, the unit bid price shall govern. All figures shall be written in ink or typed. Penciled entries will not be accepted. If entries are in pencil, the bid proposal shall be considered irregular and the bid will be rejected.

The bidder's proposal shall be signed with ink by the individual, by one or more members of the partnership, by one or more members or officers of each firm representing a joint venture, by one or more officers of a corporation, or by an agent of the bidder legally qualified and acceptable to the State. If the proposal is made by an individual, their name and post office address shall be shown; by a partnership, the name and post office address of each partner shall be shown; as a joint venture, the name and post office address of each member or officer of the firms represented by the joint venture shall be shown; by a corporation, the name of the corporation and the business address of its corporate officials shall be shown.

4. Irregular Proposals

Proposals will be considered non-responsive and shall be rejected for the following reasons:

1. If the Bid Proposal Form(s) are on a form other than that furnished by the State or if the form is altered or any part thereof is detached.
2. If there are unauthorized additions, conditional or alternate bids, omission of addenda, or irregularities of any kind, which tend to make the proposal incomplete, indefinite, or ambiguous as to its meaning.

3. If the bidder adds any provisions reserving the right to accept or reject an award, or to enter into a contract pursuant to an award.
4. If the Bid Schedule does not contain a unit price for each pay item listed except in the case of alternate pay items.
5. If the Bid Documents are not sealed, when received by the Department.
6. If the Signature Page is not signed in Ink.
7. If Addendums are not signed and returned with the Bid Documents.
8. If the required Public Works License Number(s) is not inserted on the Signature Page.

5. Proposal Guaranty / Surety Bond Requirements

No proposal will be considered unless accompanied by a guaranty of the character and in an amount not less than the amount indicated on the Request for Quotation.

If a surety bond is used, it shall be submitted on an acceptable form signed by the bidder and their surety company. Power of Attorney for the person who executes the bond on behalf of the surety as Attorney-In-Fact must accompany the proposal bond.

The lowest responsive bidder shall furnish a performance bond and a payment bond each in the amount of the contract.

The lowest responsive bidder may deposit government obligations in lieu of performance and payment bonds under the following conditions:

1. The obligations shall be acceptable to the State Treasurer.
2. The obligations shall be payable to, or fully negotiable by, the Department.
3. The obligation shall be in an amount equal at fair market value to the penal sum of the required surety bonds.
4. The bidder pays the initial and return transfer charges for transmittal of the obligation of the Treasurer's Office.

Within **90 days** after final acceptance for the project those obligations deposited, as a performance bond will be returned, less any amount owed to the Department as a result of this contract. Obligations deposited, as the payment bond shall be held for a period of one year from the date of acceptance of the project for settlement of claims in accordance with Idaho Code, Section 54-1927.

Government obligations shall be deposited with the State Treasurer with instructions to issue a safe keeping receipt to the Department.

6. Disqualification of Bidders

Any of the following reasons may be considered as being sufficient for the disqualification of a bidder and the rejection of their proposal or proposals:

1. More than one proposal, for the same work from an individual, partnership or corporation under the same name or a different name.

2. Evidence of collusion among bidders. Participants in such collusion will receive no recognition as bidders for any future work of the State until any such participant shall have been reinstated as a qualified bidder.

7. Consideration of Proposals

After the proposals are opened and read, they will be compared on the basis of the summation of the products of the approximate quantities shown in the bid schedule by the unit bid prices. The results of such comparisons will be available at <http://itd.idaho.gov/business/business.htm>.

The right is reserved to reject any or all proposals, to waive technicalities, to advertise for new proposals, or to proceed to do the work otherwise, if, in the judgment of the Department, it is in the best interest of the State.

8. Execution / Award of the Contract

The award of contract, if it is awarded, will be made within **15 calendar days** after the Intent to Award Notice letter has been mailed to the lowest responsive bidder whose proposal complies with all requirements prescribed.

However, the award may be deferred beyond **15 calendar days** by mutual written agreement between the Department and the lowest responsive bidder.

The contract shall be signed by the lowest responsive responsible bidder and returned together with the Surety bonds, **within 15 calendar days** after the bidder has received the contract. If the contract is not executed by the State within **15 calendar days** following receipt from the bidder of the signed contracts and bonds, the bidder shall have the right to withdraw their bid without penalty. No contract shall be considered as effective until it has been fully executed by all of the parties thereto.

9. Failure to Execute Contract

Failure to execute the contract and file acceptable bonds within **15 calendar days**, after the contract has been received by the bidder, shall be just cause for the cancellation of the award of contract and the forfeiture of the proposal guaranty which shall become the property of the State, not as a penalty, but in liquidation of damages sustained. Award may then be made to the next lowest responsible bidder or the work may be re-advertised or otherwise, as the Department may decide.

10. Return of Proposal Guaranty

Proposal guaranties, except those of the two lowest responsive bidders, will be returned immediately following the opening and checking of the proposals. The retained proposal guaranty of the unsuccessful of the two lowest responsive bidders will be returned within 10 days following the award of contract and that of the successful bidder will be returned after satisfactory Surety bonds have been furnished and the contract has been executed.

TERMS AND CONDITIONS

1. Contract Term

Contract period will be for one (1) year with the option to renew for 2 (two) one year periods, when agreed upon by both the contractor and the Idaho Transportation Department. The Contractor shall not sublet, sell, transfer, assign or otherwise dispose of the contract or contracts or any portion thereof, or of his right, title or interest therein without prior written consent and approval of the Purchasing Agent.

2. Payment Requirements

Payments will be made as provided: Upon satisfactory completion of services specified herein, the Contractor will be paid monthly as soon as possible after receipt of invoices. Payments otherwise due may be withheld on account of substandard or defective work not remedied.

3. Changes

The Department reserves the right to revise the "Work Locations and Schedule" and to make other changes within the general Scope of Work as may be deemed necessary to best serve the interests of the Department. Changes in compensation, which may result from such revisions, shall be documented by formal Change Order to the contract and approved by the Purchasing Agent.

4. Claims for Adjustment and Disputes

If the Contractor believes that additional compensation is due them for work or material not clearly covered in the contract, or not ordered as extra work, as defined herein, they shall prosecute their claim in the following manner.

Prior to doing the work on which they believe additional compensation is due them, the Contractor shall notify the ITD Purchasing Agent in writing of their intent to file a claim. If such notification is not given, then the Contractor shall thereby waive their right to any claim for such additional compensation.

At a minimum, the detailed letter shall include a narration of events, citing of entitlement and a showing of the amount of compensation and/or adjustment of time believed due. Full documentation for all elements in the letter shall be included. The claim will be considered and a determination made. The Purchasing Agent will notify the Contractor in writing of the decision.

The decision will be final and conclusive unless, within thirty (30) days from receipt of the Purchasing Agent's letter, the Contractor submits an appeal in writing to the Purchasing Agent. All pertinent information, references, arguments and data to support the claim shall be included. The Purchasing Agent will review the claim and the Contractor will be notified by mail. This decision will be final and conclusive.

In connection with any appeal proceeding under this subsection, the Contractor will be afforded an opportunity to be heard and offer evidence in support of their claim at any level of review. Pending final decision of a dispute hereunder the Contractor shall proceed diligently with performance of the contract.

5. Compliance

If the Department registers a formal and written complaint with the Contractor in respect to undesirable or unsanitary conditions, the Contractor will have 72 hours in which to respond in person to the complaint, to the project Coordinator to remedy the problem(s). Failure to respond in the prescribed time to the complaint or to remedy the problem may result in termination of the contract as provided in Section 16 TERMINATION.

If the Department is not satisfied with the results and remediation of the complaint, the project coordinator may require periodic and joint inspections of the area with the Contractor to discuss and point out Contractor's violations. Failure of the Contractor to attend these inspections may result in termination of the contract.

6. Termination For Default

Should the Contractor neglect to prosecute the work properly, or fails to perform any provision of the contract, the Department, after seven (7) days from written notice to the Contractor, may without prejudice to any other remedy they may have, make good the deficiencies and may deduct the cost thereof from the payment then or thereafter due to the Contractor or, at its option, may terminate the contract and take possession of all materials, tools, fixtures and furnish the work by such means as the Department sees fit, and if the unpaid balance of the contract price exceeds the expense of finishing the work, such excess shall be paid to the Contractor, but if such expense exceeds such unpaid balance, the Contractor's surety shall pay the difference to the Department.

7. Termination For Convenience

- A. The DEPARTMENT or CONTRACTOR may cancel this Contract at any time with or without cause upon thirty (30) days' written notice to the other party, and specifying the date of termination.
- B. Cancellation of the Contract by either party shall terminate the obligations or liabilities of the parties, except that the obligations or liabilities incurred prior to the termination date shall be honored.

8. Indemnification

The Contractor shall indemnify, save harmless, and defend regardless of outcome, the State from the expenses of and against all suits, actions, claims, or costs, expenses, and attorney fees that may be incurred because of any injuries or damages received or sustained by any person, persons, or property on account of the operations of the Contractor or their subcontractors; or on account of or in consequence of any neglect in safeguarding the work; or through use of unacceptable materials in the work; or because of any act or omission, neglect, or misconduct of the Contractor or their subcontractors; or because of any claims or amounts recovered from any infringements of patent, trademark, or copyright; or from any claims or amounts arising or recovered under the Worker's Compensation Act or any other law, ordinance, order or decree.

9. Insurance Requirements

The Contractor shall carry such public liability and property damage insurance that will protect them and the State of Idaho from claims for damages for bodily injury, including accidental death, as well as for claims for property damages, which may arise from operations under the contract whether such operations be by themselves or by any subcontractor or by anyone directly or indirectly employed by either of them. The following is a brief explanation of the required insurance coverage's. A certificate of insurance will be required of the contractor selected.

- 1) Worker's Compensation. The CONTRACTOR, its subcontractor(s), if any, and all employers providing work, labor or materials under this contract, are subject employers under the Idaho Worker's Compensation Law, and shall comply with Idaho Statutes regarding Worker's Compensation.

For the duration of this Contract, and until all work specified herein is complete, the CONTRACTOR, its subcontractor(s), if any, and all employers providing work, labor or materials under this contract, shall provide Idaho Worker's Compensation coverage that satisfies Idaho law for all their subject workers.

The CONTRACTOR must have a valid Worker's Compensation insurance policy in effect prior to the Division of Purchasing generating the contract. The CONTRACTOR must show proof of such coverage by presenting to the Division of Purchasing a valid certificate of insurance showing statutory coverage.

The CONTRACTOR must provide either a Certificate of Idaho Workers' Compensation Insurance issued by a surety licensed to write Idaho Workers' Compensation Insurance in the State of Idaho, as evidence that the CONTRACTOR has in effect a current Idaho Workers' Compensation Insurance policy, or an extraterritorial certificate approved by the Idaho Industrial Commission from a State that has a current reciprocity agreement with the Industrial Commission.

- 2) Employer's Liability. This coverage is written in conjunction with Worker's Compensation and provides insurance for the employer's liability to its employees in circumstances where the injury is not covered by the Worker's Compensation law and the employer may be subject to common law liability. Employer's liability insurance shall be a minimum amount of \$100,000 per occurrence.
- 3) Liability Insurance. For the duration of the Contract and until all work specified in the Contract is completed, the CONTRACTOR shall have and maintain, at CONTRACTOR'S expense, the liability insurance set forth below and shall comply with all limits, terms and conditions of such insurance. Work under this Contract shall not commence until evidence of all required insurance is provided to the Division of Purchasing. Evidence of insurance shall consist of a completed certificate of insurance signed by the insurance agent for the CONTRACTOR and made a part of this Contract.
- 4) The Contractor shall not commence work under the contract until he obtains all insurance required under this provision and furnishes a certificate or other form showing proof of current coverage to the State and to the railroad or railway company, when involved. All insurance policies and certificates must be signed

copies. After work commences, the Contractor will keep in force all required insurance until written acceptance of the project.

Required Insurance:

1. Commercial General Liability Insurance. The CONTRACTOR shall have and maintain Commercial General Liability (CGL) Insurance covering bodily injury and property damage. This insurance shall include personal injury liability coverage; blanket contractual liability coverage for the indemnity provided under this Contract and products/completed operations liability. The combined single limit per occurrence shall not be less than \$1,000,000 or the equivalent. Each annual aggregate limit shall not be less than \$1,000,000, when applicable, and will be endorsed to apply separately to each job site or location.
2. Automobile Liability Insurance
The Contractor shall obtain, at the Contractor's expense, and keep in effect during the entire term of the contract, Automobile Liability Insurance covering owned, non-owned and hired vehicles. This coverage may be written in combination with Commercial General Liability Insurance. Combined single limit per occurrence shall not be less than \$1,000,000.

Additional requirements:

State of Idaho as Additional Insured. The liability insurance coverage required for performance of the Contract shall include the State of Idaho, the Idaho Transportation Department and its division, officers and employees as additional insured, but only with respect to the CONTRACTOR'S activities to be performed under this Contract.

Notice of Cancellation or Change. The CONTRACTOR shall ensure that all policies of insurance are endorsed to read that there shall be no cancellation, material change, potential exhaustion of aggregate limits or intent not to renew insurance coverage(s) without sixty (60) days prior written notice from the CONTRACTOR or its insurer to the Idaho Transportation Department. CONTRACTOR shall further ensure that all policies of insurance are endorsed to read that any failure to comply with the reporting provisions of this insurance, except for the potential exhaustion of aggregate limits, shall not affect the coverage(s) provided to the State of Idaho, Transportation Department and its divisions, officers and employees.

10. TITLE VI ASSURANCES

I. APPLICATION

These contract provisions shall apply to all work performed on the contract by the contractor with his own organization and with the assistance of workmen under his immediate superintendence and to all work performed on the contract by piece work, station work or by subcontract.

II. EMPLOYMENT LISTS, LABOR SELECTION, NON-DISCRIMINATION

A local public employment agency has been designated by the State to prepare the employment lists for the project.

All qualified unskilled labor shall be employed insofar as possible from lists furnished the contractor by the employment agency designated in the contract. The contractor may avail himself of the services of the employment agency for obtaining labor of the intermediate and skilled grade.

In the performance of this contract, within the limitations of Subsection 107.01 requiring employment of up to 95% Idaho residents, preference in employment shall be given to qualified honorably discharged Veterans of the United States Armed Forces.

During the performance of this contract, the contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "Contractor"), agrees as follows:

1. Compliance with Regulations:

The Contractor shall comply with the Regulations relative to nondiscrimination in federally assisted programs of the U.S. Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the "Regulations"), which are herein incorporated by reference and made a part of this contract.

2. Nondiscrimination:

The Contractor, with regard to the work performed during the contract, shall not discriminate on the grounds of race, color, religion, sex or national origin in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The Contractor shall not participate either directly or indirectly in the discrimination prohibited by section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

3. Solicitations for Subcontracts, Including Procurements of Materials and Equipment:

In all solicitations, either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurement of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the Contractor, of the Contractor's obligations of this contract and Regulations relative to nondiscrimination on the grounds of race, color, religion, sex, or national origin.

4. Information and Reports:

The Contractor shall provide all information and reports required by Regulations and/or Directives issued pursuant thereto and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the state of Idaho Transportation Department or the Federal Highway Administration to be pertinent to ascertain compliance with such Regulations or directives. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information, the Contractor shall so certify to the state of Idaho Transportation Department or the Federal Highway Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

5. Sanctions for Noncompliance:

In the event the Contractor is in noncompliance with the nondiscrimination provision of this contract, the state of Idaho Transportation Department shall impose such contract sanctions as it or the Federal Highway Administration may determine to be appropriate, including, but not limited to:

- a. Withhold progress payments until it is determined that the contractor is found in compliance;
- b. Suspend the contract, in whole or in part, until the contractor or subcontractor is found to be in compliance with no progress payment being made during this time and no time extension made;
- c. Cancel or terminate the contract for cause;
- d. Assess against the contractor's final payment on this contract or any progress payments on current or future Idaho projects an administrative remedy by reducing the final payment or future progress payment in an amount equal to 10% of this contract or \$7,700, whichever is less.

6. Incorporation of the Provisions:

The Contractor shall include the provisions of paragraphs (1) through (6) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Contractor shall take such action with respect to subcontractor or procurement as the state of Idaho Transportation Department or Federal Highway Administration may direct as a means of enforcing the provisions, including sanctions for noncompliance, provided, however, that in the event a Contractor becomes involved in, or is threatened with litigation with a subcontractor or supplier as a result of such direction, the Contractor may request the state of Idaho Transportation Department to enter into such litigation to protect the interests of the State, and in addition, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

c. **LABOR PROVISIONS**

The wages of labor shall be paid in legal tender of the United States, except that this condition will be considered satisfied if payment is made by a negotiable check, on a solvent bank, which may be cashed readily by the employee in the local community for the full amount without discount or collection charges of any kind. Where checks are used for payment, the contractor shall make all necessary arrangements for them to be cashed and shall give information regarding such arrangements. No fee of any kind shall be asked or accepted by the contractor or any of his agents from any person as a condition of employment on the project.

No employee shall be charged for any tools used in performing their respective duties except for reasonably avoidable loss or damage thereto.

Every employee on the work covered by this contract shall be permitted to lodge, board and trade where and with whom he elects and neither the contractor nor his agents nor his employees shall directly or indirectly require as a condition of employment that an employee shall lodge, board or trade at a particular place or with a particular person.

No charge shall be made for any transportation furnished by the contractor or his agents to any person employed on the work.

No individual shall be employed as a laborer on this contract except on a wage basis, but this shall not be construed to prohibit the rental of teams' trucks or other equipment from individuals. No such rental agreement or any charges for feed, gasoline, supplies or repairs on account of such agreement, shall cause any deduction from the wages accruing to any employee except as authorized by the regulations hereinbefore cited.

DOMICILE

PREFERENCE FOR IDAHO DOMICILED CONTRACTORS ON PUBLIC WORKS (Idaho Code 67-2348 - Effective July 1, 1982). To the extent permitted by federal laws and regulations, whenever the State of Idaho, or any department, division, bureau or agency thereof, or any city, county, school district, irrigation district, drainage district, sewer district, highway district, good road district, fire district, flood district, or other public body, shall let for bid any contract for bid any contract to a contractor for any public works, the contractor domiciled outside the boundaries of Idaho shall be required, in order to be successful, to submit a bid the same percent less than the lowest bid submitted by a responsible contractor domiciled in Idaho as would be required for such an Idaho domiciled contractor to succeed over the bidding contractor domiciled outside Idaho on a like contract being let in his domiciliary state.

If the bidder is unsure of where their business is domiciled, the following "rule of thumb" may help!

- 1) Corporation: Domiciled where chartered.
- 2) Sole Proprietor: Domiciled where permanent headquarters of business located.
- 3) Partnership: Domiciled where permanent headquarters of business located.

COMPANY NAME: _____

STATE OF DOMICILE: _____

NOTE: THIS PAGE MUST BE RETURNED WITH YOUR BID!!!!

THIS PROJECT DOES NOT REQUIRED THE RETURN OF THIS FORM
